Prof. Peter W. Kinyanjui	BSc. University of Nairobi MSc. University of London PhD. York University, Toronto, Canada	
I am a Professor of Biochemistry/Molecular Biology. I am also currently the Chairman, Department of Biochemistry. My research interest includes the use of Molecular Biology tools to address human and veterinary medical diseases such as trypanosomiasis, theileriosis and typhoid. I also have an interest in the use of DNA typing in forensic Science, and I am currently coordinating development of postgraduate Diploma course in Forensic Science in the department.
