PUBLIC RELATIONS

Santa Emmanuel Yr2

EVENTS

1) Motivational Talks

We agreed to have motivational talks after every two weeks. We are looking forward to have speakers from our department and from Various institutions.

2)Field Visitations

Our plan is to have a single field visitation after every one or two months. As of now we have made application requests to six companies.

3)Member Registration

The Club has been dormant for quite some time now. Due to the seriousness we would like to impart to the club, as leaders we agreed to register members with a fee of Shs150. The amount will help us facilitate some of our activities.

4) Social Activities

To bring togetherness in all Biochemistry students, we as a club would hold various social activities once in a while.
