

PEDAGOGY TRAINING FOR CHS ACADEMIC STAFF MEMBERS

Some members of staff [pictured] from the department of Biochemistry were trained on pedagogy facilitated by Prof Digolo Obonyo the Director of the Centre of Pedagogy and Andragogy. The three day event organized for academic staff from the college of Health Sciences focused on the following aspects of teaching:

- i. Instruction and communication process;
- ii. Motivation and individual differences among learners;
- iii. Nurturing critical and creative thinking through pedagogy;
- iv. Strategies of teaching in higher education;
- v. Methods and techniques of teaching science based subjects in higher education and
- vi. Assessment and evaluation of learning outcome with emphasis on setting, administration and processing of examinations.
